

1. Use "site:" in your search. Take a screenshot and explain what it means.
  - a. The Site search word is for specifying what specific base URL you would like the search engine to sort by. This allows for website-specific searches and can fine-tune the results you receive.

2. Use "inurl:" in your search. Take a screenshot and explain what it means.
  - a. The inurl search keyword constrains the search engine by limiting the results to only allow for web links that contain the specific search word or words.

4. Use "intext:" in your search. Take a screenshot and explain what it means.

- a. The intext search keyword tells the search engine to only display results that contain the word/words being searched in <p>, <a> or <h#> html tags. This is useful for narrowing down forums/articles that directly mention the subject in question.

The screenshot shows a Google search interface with the query 'intext:big floppa'. The search results are displayed in a dark theme. The top result is from Wikipedia, titled 'Big Floppa - Wikipedia'. The snippet describes Big Floppa as an internet meme based around a caracal cat named Gosha (Russian: Говва). It lists contents: 1 Early and personal life; 2 History ... It also mentions years active (2018—present), species (Caracal), and owner (Andrey Bondarev; Elena Bondareva). Below the Wikipedia result, there are sections for 'People also ask' with questions like 'Is Big Floppa cat still alive?', 'What breed is Big Floppa?', and 'What is Big Floppa real name?'. There are also links to 'Know Your Meme' and 'Floppapedia Revamped Wiki | Fandom'. On the right side, there is a 'Listen' section with links to Spotify, YouTube, YouTube Music, and Pandora. Below that is an 'About' section with more details about Big Floppa, including birth date (December 21, 2017), species (Caracal caracal), owner (Andrey Bondarev; Elena Bondareva), and known for (Rapping). There is also a 'Songs' section listing 'GAS GAS GAS' and 'KATER'. A 'Profiles' section shows an Instagram link. At the bottom, there is a 'People also search for' section.

5. Use +, -, &, and | to combine them together. Take a screenshot and explain what it means.
- a. The operator search keywords allow for logical expressions to be added into the search query. This can be useful if you want to research a topic but not have the engine return unwanted results.
